JAMES - High tech with style

## TRADITIONAL - Class 2 (503) (23-32 mmHg) Class 3 (504) (34-46 mmHg) Class 4 (505) minimum mmHg)

When a high degree of safety and effectiveness is required.

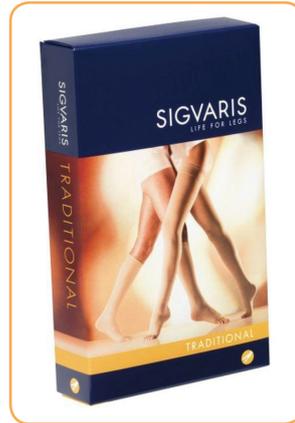

- Maximum pressure stability throughout the day
- Excellent strength-stretch ratio
- Great medical benefits for safe and successful treatment
- High wearing comfort thanks to special elasticity and good air permeability
- With refined natural rubber
- Wide range of sizes available

When it comes down to high medical efficacy, TRADITIONAL is the reliable classic. Day after day, this product gives your legs a secure feeling, ensuring top-quality medical compression. As TRADITIONAL stockings are particularly elastic and breathable, they are extremely comfortable to wear. The neutral skin colour matches all clothing and combines perfectly with delicate stockings.

## COTTON - Class 1 (18-21 mmHg) Class 2 (23-32 mmHg) Class 3 (34-46 mmHg)

COTTON stockings make your legs feel light and provide exceptional comfort. The fine, processed cotton yarn is lovely and soft, and is in direct contact with the skin. Their excellent thermo-regulation makes COTTON stockings extremely comfortable to wear in both cold and warm weather.

- Optimal fit and maximum comfort
- Exclusive cotton yarn inside the stocking (SWISS COTTON Premium cotton fibres)
- Ideal for men and women with sensitive skin
- Excellent thermo-regulation
- Easy to slip on and off
- SWISS MADE quality seal
- Wide range of sizes available
- Flesh and Black colours available

## MAGIC - Class 1 (18-21 mmHg) Class 2 (23-32 mmHg)

The women's compression stocking for every requirement.

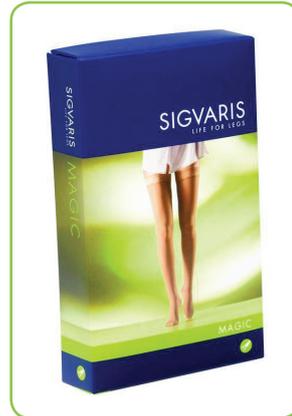

- A delicate, slightly transparent stocking with a natural, elegant look
- Perfect fit and exceptional degree of comfort
- Simple handling
- Provides optimum leg support
- Wide range of sizes available
- Flesh and Black colours available

MAGIC, the versatile compression stocking, is exceptionally easy to handle and has a perfect fit. This has been confirmed by intensive tests carried out with compression stocking wearers under scientific conditions. Their natural look and subtle transparency also appeal to the senses.

## JAMES - High tech with style Class 2 (23-32 mmHg)

High tech with style.

- Full sole cushions
- Large feet
- Subtle ribbed texture
- Reinforced heel
- Seamless toe section
- Integrated odour-inhibiting zinc impregnation keeps feet fresh
- Available calf length and in black

## ULCER X - Class 3 (504) (34-46 mmHg)

Innovation meets tradition.

Treat venous ulcers successfully.

- Significantly higher healing rate and shorter healing time compared with conventional bandages
- Particularly easy to put on and take off thanks to patented understockings
- SIGVARIS ULCER X can be applied by patients themselves
- The use of natural yarns lends an especially comfortable feeling

Compression therapy with ULCER X has considerable objective and subjective advantages compared with bandages.

## ARM SLEEVES - Traditional and Advance

### Advance 1 + 11

Silver ion enriched polymide microfibre has antibacterial properties and prevents odours and skin irritations.

- Bacteriostatic polymide microfibre
- Thermoregulating fibres
- Sensinova griptop or soft top
- With or without mitten

### Traditional

For maximum pressure stability throughout the day.

- Griptop or arm strap
- With or without mitten
- Mitten available separately

## TRAVENO - Travel compression

The perfect travel companion.

Traveno will come in handy wherever you go.

- Intensive graduated support
- Reduces swelling
- Breathable and easy to clean
- Ideal for long journeys

Travel safely with Traveno

Every time you sit for a long period of time without moving your legs, the risk of travel thrombosis increases – whether you're travelling by air, car or train. Swelling and painful legs are possible symptoms. Traveno promotes circulation in your legs by applying gentle pressure.

A scientific study has proven that SIGVARIS Traveno provides considerable health benefits.
