# SIMON

Your everyday aid for  
compression stockings

[www.sigvaris.com](http://www.sigvaris.com)

## SIMON

### Your everyday aid for compression stockings

You can use SIMON to don and doff your compression stocking quickly, effortlessly, and with very little exertion. It can even be used if you have limited mobility.

SIMON is always there when you need it. It will accompany you on trips and can be easily stowed when it's not needed.

## What are the benefits of a donning aid?

- Less effort
- More comfortable to don and doff stockings
- Less physical strain on you or your caregiver
- Greater independence
- Quicker donning and doffing of stockings
- Compression stockings will last longer: they retain their therapeutic pressure for longer and are preserved

## What makes SIMON so special?

- Easy and practical to use for you or your nursing staff
- Energy-saving aid for you or your nursing staff
- Particularly suitable for those with limited mobility
- Can be taken apart and goes with you on your travels

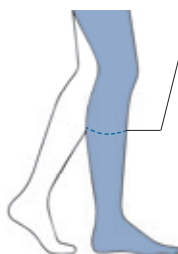

## SIMON

### Size determination

Choosing the right size is essential to make sure that the donning aid works properly and lasts.

SIMON is available in **4 sizes**:

**cC** widest circumference of the calf

Size	cC
X-small	25 – 29 cm
Small	30 – 38 cm
Medium	38 – 46 cm
Large	46 – 54 cm
