

# excILOR<sup>®</sup>

## THERE IS ALWAYS AN EXCILOR<sup>®</sup> FOR YOU

### TREAT

#### EXCILOR<sup>®</sup> TREATMENT FOR FUNGAL NAIL INFECTION

- / Optimal Penetration
- / One minute a day
- / No filing required
- / Results will be visible when the nail begins to grow back

### PROTECT

#### EXCILOR<sup>®</sup> PROTECTOR SPRAY 3-IN-1

- Protects against foot infections:
- / Warts
  - / Athlete's foot
  - / Nail fungus

# TREAT

## WHAT IS ONYCHOMYCOSIS?

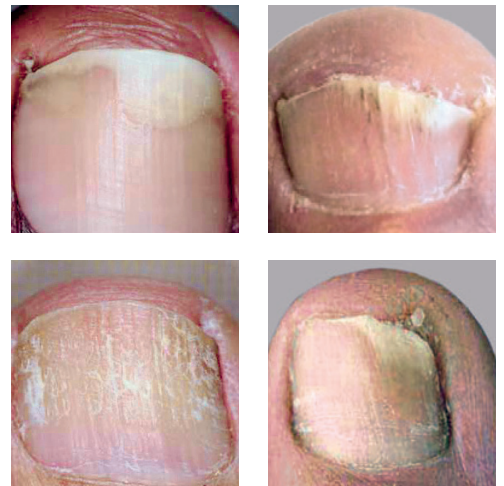

- / Onychomycosis is a fungal infection of the toenails or fingernails.
- / The infection occurs when the fungus infects the nail bed.

**UNLESS TREATED CORRECTLY, FUNGAL NAIL INFECTIONS  
MAY GET WORSE OR SPREAD**

## DID YOU KNOW?

in Australia, on average up to  
**10%** of the population 18+ suffers  
from Onychomycosis (2.3million)<sup>1</sup>

**>90%** of sufferers don't  
treat themselves.<sup>2</sup>

## WHY TREAT ONYCHOMYCOSIS?

- / Fungal nail infections won't go away without treatment.
- / It can have a significant impact on patients emotional, social and occupational life.<sup>1,6</sup>
- / Early treatment can prevent disease progression to severe onychomycosis.

# 3 AREAS OF RELEVANT INNOVATION

## TREAT

### MODE OF ACTION

- / **RAPIDLY** changes the microenvironment (nail's pH) making it **HOSTILE TO FUNGAL GROWTH**.
- / **VISIBLE RESULTS** when nail grows back.
- / Extra powerful formula, **PROVEN SUPERIOR EFFICACY**.
- / Enriched for **NOURISHING** and **MOISTURISING** the nail.

### PENETRATION

- / Superior, unique, nail penetration technology.
- / Can reach **DEEP** in the nail.
- / **FAST** and **COMPLETE** penetration.

### COMPLIANCE

- / Both pen and solution: easy and quick to apply, fitting daily routine.
- / No need to file the nail.
- / **1 PRODUCT = 1 FULL COURSE OF TREATMENT\*** (solution).

\*400 applications (average solution).

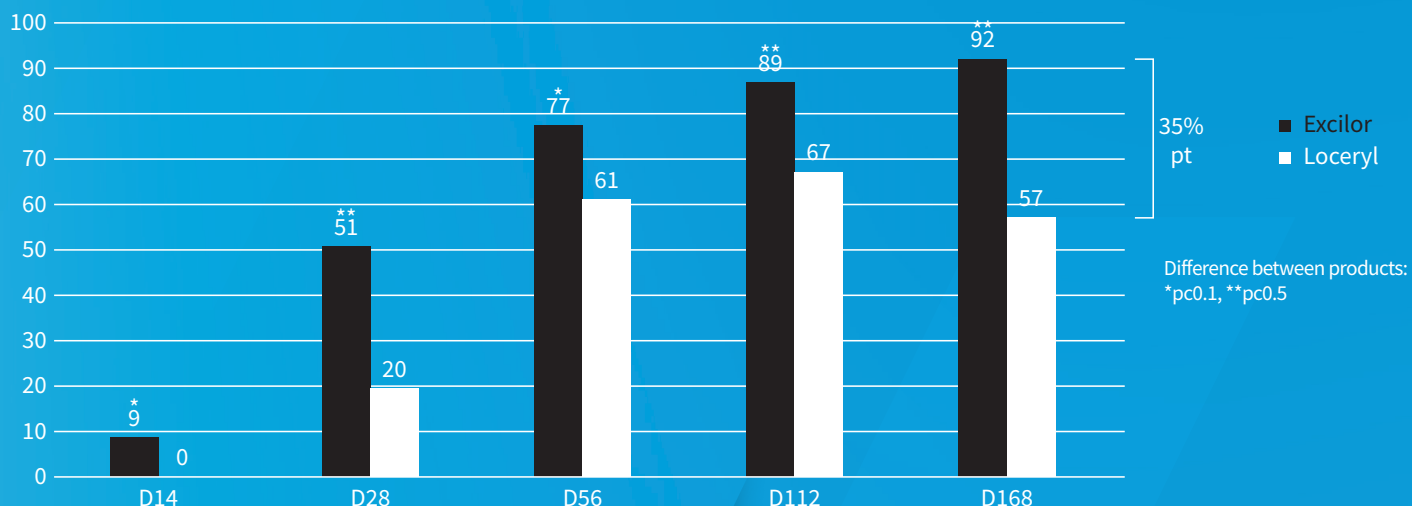

## BREAKTHROUGH SUPERIOR EFFICIENCY

# CLINICAL PERFORMANCE EXCILOR IS BETTER WHEN COMPARED TO A MEDICATED NAIL LACQUER (LOCERYL)

## TREAT

PATIENTS WITH GOOD CLINICAL SCORES  
(improvement or success)

## PATIENTS PREFER THE USE OF EXCILOR OVER LOCERYL, BECAUSE:

- / Excilor gives **FASTER** and **BETTER RESULTS**
- / Excilor's **CLINICALLY PROVEN** superiority
- / Excilor's **EASE OF USE** leads to **BETTER TREATMENT** compliance
- / Excilor is **SAFE**

## EXCILOR TREATMENT VS. OTHERS

	EXCILOR	rejuvenail	LOCERYL	Canesten	FUNGISTOP	PRONAIL

No Nail Removal	✓	✓	✓	✗	✓	✓

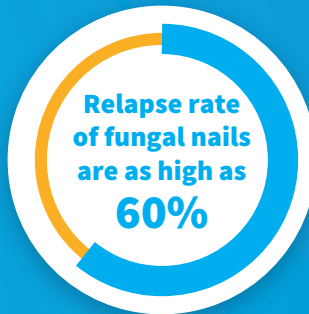

# CONTINUUM OF CARE

**TREAT**

**PROTECT**

**THE 1ST AND ONLY PROTECTOR  
SPRAY AGAINST FOOT INFECTIONS**

**PROTECT**

**PROTECTS FEET AGAINST FOOT INFECTIONS:  
WARTS, TINEA, NAIL FUNGUS**

**INSTANT DRY**

**SUITABLE FOR CHILDREN 2  
YEARS+**

**INVISIBLE SOCK**

**DURING AND AFTER BAREFOOT  
ACTIVITIES**

**ACTIVE 8 HOUR  
PROTECTION**

**PROTECTS FEET FROM ALREADY  
INFECTED SHOES AND SOCKS**

# CREATES A SUPERFICIAL AND PROTECTIVE BARRIER AGAINST VIRUS

## PROTECT

### HOW DOES IT WORK?

#### INVISIBLOCK™

Invisible and perfectly breathable

Invisible & perfectly breathable

Blocks HPV virus & trichophyton spores

Epidermis

Dermis

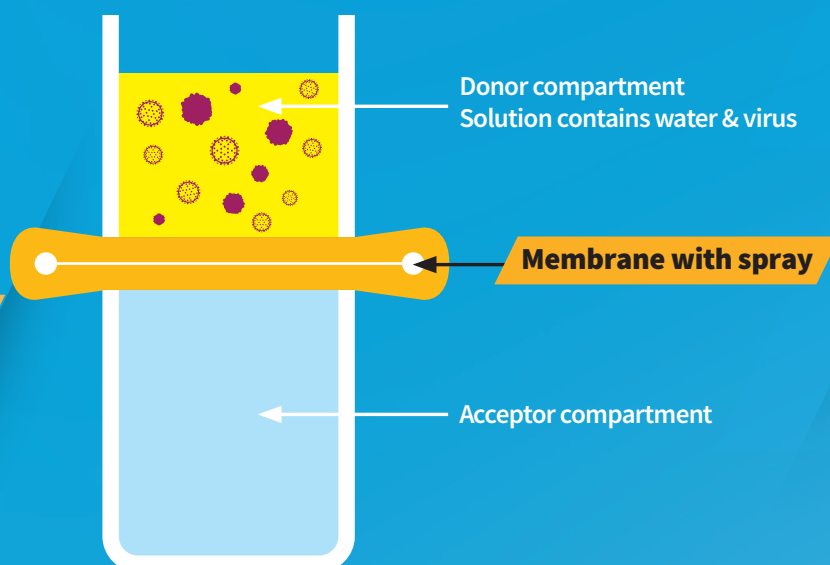

The **EXCILOR® PROTECTOR SPRAY 3-IN-1** creates a superficial, physical and protective barrier.

**INVISIBLOCK TECHNOLOGY™** blocks HPV virus and Tricophyton spores but lets water through, making the barrier breathable.

### EXTRACT OF CLINICAL STUDY:

AFTER 3 HOURS NO VIRUS HAD PENETRATED THE BARRIER, WATER ON THE OTHER HAND COULD
