Durable hold for lasting protection

Hydrofilm® is available as a standard film dressing or equipped with a highly absorbent 'Cosmopor® E' wound pad - Hydrofilm® Plus.

Indications

Hydrofilm® is indicated as a primary or post operative dressing to protect and cover non-exuding wounds, or as a secondary dressing for fixation.

Hydrofilm® Plus is a post operative dressing with a highly absorbent wound pad, to protect exuding wounds.

Contraindications

Not to be used on infected wounds.
For optimal use ensure Hydrofilm® is room temperature prior to application.

Frequency of change

Wear time is dependent on the wound type and clinical evaluation, Hydrofilm® can stay in situ for up to 6 days.

Hydrofilm®

Hydrofilm® Plus

Epicutaneous Patch Test*

Result: Skin tolerance very good

*Source: Repetitive epicutaneous test performed by an independent external research institute, 2005

Observational Study**

93% of the patients show no skin irritation after removal of the dressing

96% show little or no adhesive remnants on the skin

** Source: User test with 152 participants in 14 clinics from 9 countries, 2006
